ABOUT US

Authenticity, sustainability and empowerment lie at the core of everything we do at Arihant acrylic a well know name in acrylic products since its inception in 2004, Mumbai. From our dream of making the best of acrylic products accessible to all our valuable customers, Arihant acrylic has become the largest omnichannel designer acrylic importer, wholesaler & retailer. We will never compromise on the quality of the product we bring to you and the authenticity will always remain one of our key guiding principle. We would also like to acknowledge you to our brand BRAVIO, importer in WPC panel's, Alabaster, Acrylic, Acrylic high matte laminates, PETG sheets, PVC wall and ceiling panels.

We work with Harmony and catena with all the distributors and retailers We strive to set a benchmark of designer and genuine product for both interior space as well as commercial, we place emphasis on wall paneling, highlighting cafeteria, kitchen space and every bit and corner to enlighten your comfort space We specialise in having our own fabrication and machinery serving you the superior quality work and luxurious designs. We have a team of professional associates who strive endlessly to provide the best shopping experience to each of our customers.

FURNITURE (Healthcare) Wall Lining & Horizontal Surfaces, Lockers, Cabinets, Trolleys

Commercial : Hospitality & Restaurant, Table Counter Tops, Doors, Cubicles, Lockers Cabinets Wall Cladding & Partition

GENERAL USE & CARE GUIDE

ATLETO laminates are manufactured with aesthetics and durability in mind.

When used as recommended and with appropriate care, our laminates will last through the years.

ATLETO laminates are easy to maintain.

LAMINATES

- Cleaning Should be done with water and a clean, non-abrasive cloth.
- To remove more stubborn stains, use mild household cleansers like Colin IP gently wipe down with a non-abrasive cloth.
- Avoid the use of abrasive liquid cleansers, bleaching compounds or solution as these may damage the surface of the laminate.
- Do not place hot cookware directly on the laminate. Prolonged exposure to temperatures above 30°C degree Celsius may cause damage to the laminate surface.
- Do not use the laminate for purposes that it is not intended for (E.g. do not iron, chop, hammer or expose the laminate to open flame.)
- Outdoor application of the laminate with exposure to direct sunlight and weather conditions are not recommended.
- UV rays may reshape the laminate.
- Gloss surfaces are recommended only for vertical application.
- Do not use thinner and toluene on the surface of the ATLETO laminates. This may cause decourization of the surface.
- Store the laminates at temperature below 30°C degrees Celsius.
- Typically conform to internationally recognized technical standards.
- Have a thickness balance of +/- 10%
- Peel off the protective film after processing.

THE WAYS YOU CAN ENJOY THE ROYALNESS OF ATLETO LAMINATE TO MAKE YOUR DREAMS ALIVE IN SMART WAY.

To avoid the problems of air bubbles appearing up and yellow color dullness or yellow patches problem in the laminate sheet after installation of ATLETO laminate, customer should know some facts before buying ATLETO laminate. As ATLETO Laminate is 6H Acrylic laminate which has the scratch resistance characteristic and looks like painted glass or colour lamination.

PLEASE FOLLOW SOME FACTS ABOUT INSTALLATION OF ATLETO LAMINATE.

- Please check the Laminate at the time of delivery, also please check whether it was not damaged during transportation or handling and then use it for installation.
- Before installing ATLETO laminate make sure that substrate (Plywood, MDF, Particle board) is good and superior quality of calibrated thickness & even surface.
- If there is use of any interior quality or not as per standard quality dipped plywood and dipped lipping patti, kindly rub dipped colour layer by using sand paper. Then use ATLETO laminate to avoid yellow colour patches.
- Clean the surface of substrate (Plywood, MDF, Particle Board) to make free from dust to grease by cloth, soft brush, sponge or sand paper.
- Always use water base Peva (Polyethylene Vinyl-Acetate Co-Polymer) Adhesive like BRAVIO BOND for ATLETO laminate.
- Stir the adhesive before using it and do not mix water in adhesive.
- Spread the adhesive uniformly brush, roller or adhesive spreader on both ATLETO laminate and substrate (Plywood, MDF, Particle Board)
- Please do not use ATLETO Laminate more than 8 x 2. Also leave at least 2mm of groove between two pieces of laminate, so that at the time of pressing it will be easy for removing air between ATLETO laminate and substrate (Plywood, MDF, Particle Board)
- Please do not use any uneven surface of substrate (Plywood, MDF, Particle Board) because in future it would affect the ATLETO Laminate in its looks, finishing & will also lead to appearing of air bubbles in future.
- Use soft pinch roller or normal pressing technique at the time of pressing ATLETO laminate on the substrate (Plywood, MDF, Particle Board). Also, the pressing should be done from the middle of the panel and move towards the side line & corners of the panel. This will help in removing the air between the ATLETO laminate and substrate (Plywood, MDF, Particle Board).
- Please make sure that you give sufficient time to press the ATLETO laminate for almost 12 to 15 hours to achieve full bonding
- Please do not use synthetic rubber adhesive (SR, Jat, Bostic, Heat, etc)
- After the installation of ATLETO laminate please avoid direct sunlight on it.
- Please do not place hot crockery directly on the ATLETO laminate. Prolonged exposure to temperature above 30° C may cause patches to ATLETO laminate.
